

bioPURE

Changing the Standard of Clean for Our Students

At Mount St. Mary Academy, it is important that our students have a safe and healthy environment to learn in every day. In an effort to ensure our school is held to the highest standard of clean, we have partnered with **bioPURE**.

bioPURE will provide routine disinfection services to our entire campus, complete with 30-day residual disinfection to continuously reduce the growth of harmful viruses, germs, and other microbes.

Our partnership with bioPURE is a **PROACTIVE** choice to ensure that we are **Changing the Standard of Clean** at Mount St. Mary Academy both now and in the future.

A few things to know:

- bioPURE is **SAFE**: the products used are hospital-grade, food-safe, and considered “friendly” by the World Health Organization.
- bioPURE is **EFFECTIVE**: the electrostatic delivery method ensures that all surfaces are disinfected more completely and efficiently than traditional spray-and-wipe methods.
- bioPURE is **ENVIRONMENTALLY FRIENDLY**: by using safer cleaners and less waste, we are reducing the load on our environment.
- bioPURE is **HEALTHY**: routine treatments increase air quality by reducing dust, mold, and allergens to make the environment your student is in healthier and cleaner.
